# LOS COLORES

Para colorear

## Colores primarios

No se pueden conseguir mezclando otros colores.

rojo

amarillo

azul

## Colores secundarios: mezclando dos primarios

rojo

+

amarillo

=

naranja

amarillo

+

azul

=

verde

azul

+

rojo

=

morado

## Más claro y más oscuro

Si añadimos blanco, el color se aclara: rojo + blanco = rosa. Si añadimos negro, se oscurece: azul + negro = azul marino.
